

AMSG News and Updates

March 2022 | Issue 3

A MONTHLY PUBLICATION

Welcome

Welcome to our third issue of AMSGazette! We're glad you are here.

I've been thinking lately about AMSG's mission and a new tagline we have been trying out: "Supporting your Mission since 2008." Since the inception of AMSG, whether we were helping the Department of Homeland Security (DHS) build a new headquarters in Washington DC or organizing and managing the program office to oversee the deployment of IED dogs for the Marine Corps, we have ALWAYS sought projects where our talented team members could add value and be part of something bigger than themselves. Along that journey, we've come to realize that our mission is your mission.

In this month's AMSGazette, we highlight a new initiative centered on employee engagement and written by two of our incredible staff members, Angela Lee and Juania Owens. And we also are pleased to present an article on the terrific work being done by our team at the Department of Energy (DOE) in Albuquerque, NM.

We thank you for taking the time to read up on AMSG and as always, we welcome your input. Please feel free to email us (amessenger@amsgcorp.net.) with ideas, news, or even just to say hello. Also please feel free to share this with any of your colleagues you think might want to learn what is happening at AMSG right now. Have a wonderful month.

Best, Jim O'Farrell President and CEO jofarrell@amsgcorp.net 571-283-1871

AMSG NEWS

Employee Engagement

Written by: Angela Lee,

AMSG Senior Director, Employee Engagement [Left] Edited by: Juania Owens,
AMSG Investment Analyst Team Lead [Right]

When we founded AMSG almost 15 years ago, we established several core principles. While those principles revolve around our customers, they also serve the most important element of the organization: our people - "our people are our most important asset".

As such, in January 2022, our President & CEO, Jim O'Farrell established the Employee Engagement Team to oversee AMSG's Employee Culture, Relations, and Wellness.

Find out more about this team and what they do by reading the full article:

CONTRACT SPOTLIGHT

Going Paperless at the Department of Energy

Written By: Juania Owens, AMSG Investment Analyst Team Lead [Left] with Ashley Walker, AMSG Account Manager [Right]

Each year Federal Government agencies collectively spend billions of taxpayer dollars and thousands of hours to create, use, and store paper and other non-electronic Federal records, prompting the need to modernize the Government's handling

of its paper and non-electronic documents.

In March 2018, the President's Management Agenda (PMA) established 14-Cross-Agency Priority (CAP) Goals, one of which included the move to an electronic – or "paperless" – government; and in June 2018, the Executive Office of the President's Office of Management and Budget (OMB) further outlined in its <u>21st</u> <u>Century: Reform Plan and Reorganization Recommendations</u>

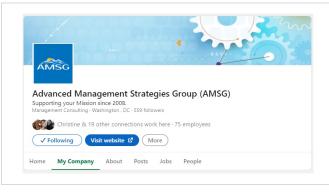

document a proposal to transition Federal agencies' business processes and recordkeeping practices to a full electronic environment.

Read more to find out how our team at Department of Energy (DOE) National Nuclear Security Administration (NNSA) Administrative Support Services for the Office of Secure Transportation (OST) Team is working to go paperless.

PRAISE FROM OUR OST CUSTOMER

"I am extremely satisfied with the performance of the Payroll Support at Fort Chaffee, AR. This rating is based on her ability to complete assignments with ongoing limitations due to Covid-19 protocols, her accuracy and timeliness to complete projects, and her overwhelming knowledge as a subject matter expert in payroll. The "can do" attitude from the payroll office spreads throughout the Training Command (TRACOM)." - Brian Westney, TRACOM Class Coordinator/Project Manager, Fort Chaffee Arkansas - 19 Oct 2021
