# SUCCESS STORIES

## DHS OAW STAFFING

When DHS awarded AMSG the Operation Allies Welcome (OAW) contract to support the resettlement of thousands of vulnerable Afghans, our team staffed over 100 extremely niche positions very rapidly. Our around-the-clock dedication resulted in a quick project start-up, minimizing transition time. In less than a year, AMSG assisted in providing safe haven to over 4,000 Afghans and helped them prepare to begin new lives in communities across America.

## MARINE CORPS INNOVATION

Partnered with the U.S. Marine Corps, AMSG is working closely to develop the next generation of Unmanned Aerial Vehicles and Chemical, Biological, Radiological, Nuclear (CBRN) defense capabilities. AMSG’s work includes defining capability requirements, coordinating with Joint agencies, and supporting the PPBE process and resulting in sustained critical requirements supporting a changing force design.

## ARMY TRADOC ENTERPRISE KNOWLEDGE MANAGEMENT

AMSG supports the U.S. Army Training and Doctrine Command’s (TRADOC) Knowledge Management (KM) Program and its efforts to foster a collaborative environment by applying KM competencies, capabilities, and initiatives; supporting KM offices that reside in TRADOC’s subordinate organizations, Centers of Excellence, and schools at various sites across the United States; and supporting TRADOC Knowledge Enterprise via its SharePoint and web development teams. AMSG develops SharePoint out-of-the-box solutions using agile capability, maintaining the Operations and Maintenance of existing applications, including more than 5,000 SharePoint sites, supporting a TRADOC customer base of more than 50,000 Army personnel, and providing strategic advisory services and KM expertise to the CKO.

## VA ORGANIZATION TRANSFORMATION

AMSG currently supports the VHA Employee Education System in its enterprise-wide VHA Training Modernization efforts, which includes the goal of VA being removed from the Government Accountability Office (GAO) High Risk List. The work AMSG’s team performs on the contract often requires quick solutions and turnaround and is highly complex in nature. AMSG currently facilitates the planning and execution of over 275 IPT-specific meetings, which includes IPT Kick-Off Meetings, agenda development, capturing meeting minutes, attendees, and action items with over 110 VHA employees nationwide. AMSG developed a robust Action Item Tracker within SharePoint, enabling project-level and IPT-level visibility into action items.
